## A Note from our Community LD

Dear Community,

I love this time of year. The trees start changing and springing forth buds. The flowers are greening up and getting ready to bloom. The days are getting longer and the air just has a special scent to it. These are changes nearly everyone loves – especially after a dark and cold winter. While change in and of itself is not always welcome, it can be refreshing and renewing – kind of like Spring each year! In the past month a change has come to our Community. After many years of using the Colors program to run our database, we converted all of our information to an internet based system – Internet Membership Systems – or simply put IMS. Myself and the other Board members who have seen this program and are already using it are very excited about the possibilities of this system and what it will allow us to do. Our database – and the information therein – is the lifeblood of our Community. Our Team selections, member directory, nominations for Board members and Lay Directors are all based upon the information in our database. With the conversion we have discovered some holes in our member information. You will be receiving phone calls and other requests in the next few months to go online and update your personal information so that it will be available to other Community members. The beauty of this system is that if you have a computer and an internet connection, you will be able to access the Community section of the database where you will be able to update your contact information along with viewing your Walk experience. While there are still a few things to be done to be completely finished with this project, I suspect when it is, you will be very impressed with it. I would like to thank Tanya Chadwick for all of her work during this transition and her service as our Community Database Administrator for the past five years. Without her help, the conversion would not have been nearly as seamless. Thanks also to Jerry and Debbie Annen for volunteering to be our new Community Database Administrators.

I would also like to extend thanks to all of you sponsors and other Community members who helped to make Men's Walk # 30 a great success. It was evident in the expressions of the Pilgrims and Team members that this was the 'Best Walk Ever!' Please join us at Community this month as we pray over the team of Women's Walk # 42. It's not too late to sponsor that special lady on this walk!

DeColores!  
Lea Cay Farr Exodus 15:2

## From The Community SD

Men's Walk #30 was greatttttttttttttttttt!

Once again we witnessed the might power of God work as He changed and transformed the lives of not only the men on that walk, but also their families, friends, and their communities. What an awesome God we serve Amen!

What a wonderful thing to know that our God cares about us and about the struggles in our lives. You know sometimes I think that we question the willingness of God to work in our lives. Like the leper in Mark 1 we often say does God care, does He even know what I am going through? The answer is YES He does. He does care and if we will give Him the chance and if we will come to Him falling on our knees and begging like the leper then He will heal us and make us whole again. You see, I believe that most if us don't have a hard time believing that God CAN WORK powerfully in our lives. I believe what most of us have a hard time believing is that God WANTS TO WORK powerfully in our lives. Yet when we "be still", when we come to the throne of GRACE and listen then like the leper we hear those beautiful words from the Savior "**I am willing. Be clean!**"

I don't know about you but I believe there is nothing better than hearing those words and getting up in Abba Daddy's lap and just sitting with Him a while. Amen!

I hope to see you at our next community gathering. Until then may God bless and keep you in His marvelous grace.

DeColores  
Larry Holder
