A NOTE FROM JUSTIN & REYDON

As I was driving down the road some men were cutting down some branches off a tree to keep it out of the highline wire. It was down the street from my house so as I came and went for a couple days I watched this process. Couple days later, as I drove by there was nothing but about 6' of a stump out of there ground. The lord started talking to me about pruning. Pruning in our lives and spiritual lives. The Lord is the pruner and sometimes the pruning is necessary. See, not only were the guys cutting the tree to keep it out of the high line wire for the tree protection but, also for the protection of the electrical lines as well. My family & I were driving to get some supper and it has been a couple weeks since they had pruned the trees and there where fresh branches all over the tree. Some times the pruning process can be painful and sometimes we don't understand why it's necessary. There are different reasons for the pruning (bearing no fruit, so you can bear more fruit, protection, growth and many more)! But he always knows what's best for us and what we need the most!

Love Justin

When you're driving down a highway with your music turned up and your cabin temperature set just how you like it, you're usually not aware of the multiple complex things happening under the hood or in the electronics. We don't think of the engine propelling us forward by fuel burning deep within or even the level of grip our tires are making on the highway passing beneath us. We just enjoy the drive. Likewise we rarely think about all that God is doing for us that we can't even see or don't realize. We breathe, our hearts beat and we just live our lives. Our Father is very active in our lives every moment, even if we don't realize it! And He loves you. God is active in you every moment. Be

blessed!

Reydon
